
Trade & Industrial Education Professional Salary, Rule

The Background:

The rule currently reads “Teachers of occupational education shall receive credit for advanced academic training on the same basis as other teachers provided they hold a professional occupational education license.”

The rule change will now treat occupational teachers with advanced academic training for salary purposes the same as other teachers with advanced academic training, regardless of the type of license (e.g., apprentice or professional).

The proposed item changes the wording of the Rule 0520-2-4-.01(15)(e) in Rules and Regulations of the State Board of Education to read as follows:

“Teachers of occupational education shall receive credit for advanced academic training on the same basis as other teachers.”

The Master Plan Connection:

This item supports the Board’s *Master Plan* Foundational Principle for Effective Teachers.

The Recommendation:

The Department of Education, Division of Career and Technical Education, recommends adoption of this rule revision on final reading. The SBE staff concurs with this recommendation.
